

Information on Admission

MA Innovation Management (University of Applied Sciences FH CAMPUS 02) study programme code 318

Introduction

According to § 4 para. 4 FHStG, the educational requirement for admission to a university of applied sciences master degree programme shall be the completion of a subject-relevant university of applied sciences bachelor degree programme or the completion of an equivalent degree programme at a recognised domestic or foreign post-secondary educational institution. In the case that equivalence has basically been established and only certain supplementary qualifications are required for full equivalence, the programme director shall be entitled to tie the determination of equivalence to examinations to be taken during the master degree programme.

Definition of „relevant“

In any case, the university of applied sciences bachelor degree programme Innovation Management completed at the University of Applied Sciences CAMPUS 02 shall be regarded as a relevant bachelor degree programme. The admission to this master degree programme shall also be made possible following the successful completion of any other relevant bachelor or university of applied sciences bachelor degree programme.

Relevant bachelor or university of applied sciences bachelor degree programmes are characterised by a minimum workload of 60 ECTS Credits in the fields Engineering/Natural sciences and Business administration, in each of which 20 ECTS Credits must be achieved. Applicants are required to provide documents proving the successful completion. The field Engineering/Natural sciences is comprised of the subjects mechanical engineering, electrical engineering, civil engineering, informatics, mathematics, physics or chemistry.

If the required 20 ECTS Credits were not achieved in one of the fields during the previous degree programme, the following qualifications will be regarded as adequate substitutions of the required workload:

- a. Completion of relevant course units in a different degree programme that cover the number of required ECTS Credits

- b. Graduation from a federal higher technical (HTBLA) or commercial school (BHAK)
- c. Relevant professional experience in this field

If b. or c. applies, the applicants must take an additional examination by the end of the first academic year to prove their competences. In the engineering/natural sciences examination, the students will be tested on the subjects mechanical engineering and electrical engineering. In the business administration examination they will be tested on general business administration. The resources for preparation will be provided on time in advance.

Common transfers

Students often transfer to a master degree programme after having completed one of the following bachelor or university of applied sciences bachelor degree programmes:

Bachelor degree programmes/University of applied sciences bachelor degree programmes	Higher education institution	Admission
BA Mechanical Engineering and Business Economics (all versions of the curriculum)	Technical University of Graz	without conditions ¹
BA Software Development and Business Management (all versions of the curriculum)	Technical University of Graz	without conditions
BA Civil Engineering and Construction Management (electives in Economics) (all versions of the curriculum)	Technical University of Graz	without conditions
BA Energy, Mobility and Environmental Management (all versions of the curriculum)	University of Applied Sciences JOANNEUM Kapfenberg	without conditions
BA Industrial Management (all versions of the curriculum)	University of Applied Sciences JOANNEUM Kapfenberg	without conditions
BA Business Engineer (all versions of the curriculum)	University of Applied Sciences Wiener Neustadt	without conditions
BA International Business and Engineering (alle Curriculumsversionen)	University of Applied Sciences Technikum Wien	without conditions
BA Innovation Engineering & Management (alle Curriculumsversionen)	University of Applied Sciences Upper Austria	without conditions

BA Production and Management (alle Curriculumsversionen)	University of Applied Sciences Upper Austria	without conditions

¹ Auflagen zur Herstellung der Gleichwertigkeit im Sinne des § 4 Abs 4 FHStG.

However, in case electives in the above-mentioned fields have been successfully completed, admission may also be possible without conditions.

Please bear in mind that the educational requirement for admission can also be fulfilled by other bachelor or university of applied sciences bachelor degree programmes, and that the listed examples are not exhaustive.

Please note that only a limited number of study places is available for the master degree programme. Therefore, the fulfilment of the educational requirement for admission does not constitute a claim to a study place. According to § 11 FHStG, an admission procedure shall be conducted at least in those cases where the number of applicants for a degree programme exceeds the number of available places. The programme director shall be responsible for designing the admission procedure.

Please contact Michael Terler (michael.terler@campus02.at) for any questions regarding admission.

Please note that this fact sheet will not be legally binding as regards admission.
